

Sabora – Singita Serengeti

Sabora Plains Camp represents a return to an enchanted time. For those who had the adventurous spirit and the means to go on safari in the grandest manner, the 1920s and 30s were a golden age. Now at Sabora, that bygone era lives on in a setting of overwhelming grandeur: a plain that spans the horizon, a great blue vault of sky overhead and the age-old passage of wildlife beyond numbering.

Set in the heart of the open Serengeti grasslands, Sabora Tented Camp is a truly beautiful heritage camp. Decorated in grand 1920s style, with original antiques and opulent rugs, the 9 lavish Bedouin-style tents are deeply romantic. Four poster beds and intricately carved bedroom furniture (including original, collapsible wooden toilets), plush velvet curtains and flower filled vases conjure Out of Africa dreams, whilst in-tent air conditioning, a Swarovski spotting scope, heated pool and Jacuzzi are all signs of the best in modern convenience.

Thousands of wildebeest can surround Sabora from June to middle of August as the great migration passes through the Reserves on its journey towards the Mara. The experience here is unlike any other in the Serengeti during this period – and though the animals are noisy, their density and determination make for a phenomenal wildlife experience!

As part of the Grumeti Reserve, Sabora Plains Camp is set in a private reserve which offers horse riding, walking safari, archery, tennis and bike riding, amongst other activities.

- Luxury 1920's style tented camp.
- Swimming pool / Jacuzzi.
- Horse riding, walking safaris, archery, tennis and bike riding are all possible.
- Great game viewing year round

Our View

This camp epitomizes everything the Serengeti is famous for....and what's more the reserve is private meaning it is rare to see another vehicle whilst on safari! Set right in the heart of a massive, typically Serengeti, plain Sabora has a superb level of service, guiding... everything to be honest!

Absolutely superb in the migration months and perfect out of these for a truly luxurious safari, Sabora, as with all the Singita camps is actually a destination itself. We love Sabora – is it better than Faru Faru, well that is a debate we have had in the office since Faru Faru opened. We still debate.....the reality is that this is one of the finest camps in Tanzania, it is a simple as that!
