

Nduara

Serengeti, Loliondo

Designed to celebrate nomadic cultures around the world; the Mongolian Gers or Yurts, and Tanzania's own Maasai bomas were the inspiration for Nomad Tanzania's new Serengeti camp. The 12 bed "yurt" camp has replaced Loliondo Safari Camp, and continues to move between north & south Loliondo (the eastern boundary of the Serengeti) to give clients the best of what this stunning area has to offer.

From December to June, the camp is located in the open plains of Piyaya. This area is bordered by the Serengeti National Park, Ngorongoro Conservation Area, Gol Mountains, and Sanjan Gorge.

From mid-June to December the camp partners with the Olosokwan village community in the north Loliondo area. Bordering Kenya's Maasai Mara to the north and the Serengeti National Park to the west, this area also offers a great mix of resident game, and is excellent walking country.

The camp itself consists of six large yurts, with adjoining yurt and separate lounge/library yurt. Each accommodation yurt has its own en-suite bathroom with traditional safari bucket showers. The yurts have been designed to be as cool as possible during the day, and have wrap-around shade net windows with flaps that can be rolled up or down.

- 6 luxurious tents
- 2 different locations throughout the year
- one of the Serengeti's best mobile camps
- en-suite facilities
- no pool

Our View

Certainly one of the most attractive of the mobile camps working in the Serengeti ecosystem, Nduara is a breath of fresh air, offering a unique style yet still focusing on what Nomads do best – authentic safari! The guiding is (as always expected from Nomads) exceptional and with only 6 rooms the remoteness, privacy and exclusivity cannot be beaten. Overall, this is a truly superb camp, especially for those wanting to stay away from the crowds and focus on walking safari and the cultures that live alongside the Serengeti. However, the camp is very seasonal for the migration so must be booked with care if the migration is what you are searching for.
