

## Sayari Tented Camp Serengeti

Located in the Northern Serengeti, near the infamous Lamai Wedge and the Mara river, Sayari Camp has one of the best locations of any Serengeti camp. Set in a stunning area with good resident game and superb migration viewing from late July to late October/early November this is a superb choice for luxury tented accommodation. Sayari is Swahili for universe or planet, capturing the vast plains and endless skies in which the camp is immersed. Situated on the Masai River in the Serengeti, Tanzania, the camp was designed to strike the perfect balance between luxury and immersion in the extensive Serengeti.

Nine spacious tents with en suite bathrooms, designed with original and traditional cloth and furniture with a king size bed and a private verandah with a overlooking the Serengeti.

The lounge & camp fire create a perfect bush setting, with Africa as it's backdrop. Sayari Camp's talented cook offers guests a fusion of European cuisine with authentic African elements. The camp's naturalist guides offer a wealth of knowledge on the wonderful surrounding land and its inhabitants. From the tent attendant to the camp manager the staff at Sayari will make sure that your visit at Sayari is an unforgettable one, sharing their knowledge and their love of the Serengeti.. From December to March part of the camp operates in the southern plains and then relocates to the northern Serengeti from June to December.

- 9 luxury tents.
- Stunning location.
- Exclusive and private.
- Excellent migration from July to November.

### Our View

Without any doubt one of the best locations in the Serengeti (if not THE best) and a superb luxury tented camp in itself. Guiding here is superb, food and service are also set very high but it is the location that makes this place one of Tanzania's best camps.

The Lamai Wedge/Northern Serengeti is private due to it being a fly in destination only. The Kenyan masses cannot cross the border and the Serengeti Seronera crowds cannot make it up in one day. Therefore this is THE best and most private area to view the Migration - August and September are absolutely perfect, river crossings pretty much guaranteed
